

Parsons Construction Services is awarded Warings contract

Paramount residential complex, Swindon, Wiltshire

Parsons Construction Services has been awarded a £750,000 contract with Warings for the Paramount residential complex in Swindon, Wiltshire.

Paramount have plans to redevelop an old concrete building in the heart of Swindon and transform it into prestigious, high-end apartments with the assistance of Parsons Construction Services, interior and exterior build specialists.

The PCS team will apply a METSEC and cementitious particle board framework to the exterior of the building followed by a Sto covering to enclose the shell and core of the original concrete structure. They have developed a bespoke drylining package for the interior to meet the high specifications of Paramount's plans.

The finished article will be at the forefront of Swindon's new urban landscape.

About PCS:

Parsons Construction Services are specialists in interior and exterior solutions tailor made to suit projects by specification, timescale and budget. Since 1985 they have provided a comprehensive range of drylining, plastering, flooring and rendering packages for the construction industry.

PCS have retained the ISO 9001:2000 certification since 2003 demonstrating a quality management system and their continued investment in the business. They are one of the largest companies offering expert construction services in the South and are applicators of leading manufacturer's products in the industry. They are also one of the Sto approved licensed applicators, which is a sought after standard in the industry.

PCS are very pleased to announce they are celebrating their 20th anniversary this year. Since their incorporation they have built up strong partners in the industry and are looking forward to continued success and to building more relationships in construction services.
