

Parsons Construction Services wins contract with Morrison Plc UK

Residential and commercial development, Gosport, Hampshire

Parsons Construction Services wins £1.5 million Morrison Plc UK contract for commercial and residential urban regeneration project in Gosport, Hampshire for Taylor Woodrow.

The planned Taylor Woodrow development will consist of 3 blocks of ten storeys, six and four storeys of commercial and residential buildings. Parsons Construction Services has been contracted by Morrison to undertake specialist exterior and interior applications. They are a one-stop-shop for interior and exterior solutions and are experts for both residential and commercial projects.

The PCS team, approved Sto licensed applicators, will provide a durable METSEC and Sto application to the exterior. On the interior PCS has custom designed a drylining package for each building and they partnered with PC Flooring Ltd to apply a floor screeding package, including a Gyvlon system, to suit the specification, budget and timescale of the project.

About PCS:

Parsons Construction Services are specialists in interior and exterior solutions tailor made to suit projects by specification, timescale and budget. Since 1985 they have provided a comprehensive range of drylining, plastering, flooring and rendering packages for the construction industry.

PCS have retained the ISO 9001:2000 certification since 2003 demonstrating a quality management system and their continued investment in the business. They are one of the largest companies offering expert construction services in the South and are applicators of leading manufacturer's products in the industry. They are also one of the Sto approved licensed applicators, which is a sought after standard in the industry.

PCS are very pleased to announce they are celebrating their 20th anniversary this year. Since their incorporation they have built up strong partners in the industry and are looking forward to continued success and to building more relationships in construction services.
