

## **PC Services launches new website**

Parsons Construction Services Ltd (PC Services) has launched a new website at [www.pcs-limited.co.uk](http://www.pcs-limited.co.uk).

Since PC Services, and the other affiliates of the PC Group, re-branded earlier this year, the company has endeavoured to streamline all its corporate literature and marketing materials to fit with the new corporate image. The re-brand including the website launch, was instigated by the company's reassessment of its client care and communications strategy.

The PC Services website guides the user through easy-to-navigate pages containing information about the company from a general overview to a more comprehensive breakdown of the company's policies and activities. One of the most referred to sections on the site is the Case Studies section which breaks down each of the sectors PC Services has expertise in and examples of projects they have completed.

The site aims to be an interactive forum for PC Services' clients and for those interested in the company and the services they offer. There are simple Contact options for the user, they can either fill out an Information Request Form to have the company brochure sent to them or email the company and its team members directly.

The site will be kept regularly updated with current news and details of new projects. To explore the exciting new PC Services website yourself visit [www.pcs-limited.co.uk](http://www.pcs-limited.co.uk) now.

For any other queries please contact Mark Parsons on 01489 894332 or email [pcs@pc-group.co.uk](mailto:pcs@pc-group.co.uk).

### **About PC Services:**

Parsons Construction Services specialises in interior and exterior solutions tailor made to suit projects by specification, timescale and budget. Since 1985 they have provided a comprehensive range of drylining, plastering, flooring and rendering packages for the construction industry.

PC Services is a proactive company based in the South; they are licensed applicators of leading manufacturer's products in the industry. PC Services has also retained the ISO 9001:2000 certification since 2003 demonstrating a quality management system and their continued investment in the company.

PC Services is pleased to announce they are celebrating their 20<sup>th</sup> anniversary this year. Since their incorporation they have built up strong partners in the industry and are looking forward to continued success and to building more relationships in construction services.
